SIR:

In reply to the Office Action dated July 12, 2002, Applicants submit the following
Amendment and Remarks.

IN THE CLAIMS

Please amend Claims 1, 8, and 9 as follows:

200-EI
DI

1. (Twice Amended) Apparatus for hierarchical software distribution allowing distribution of a software package comprising at least a first and second package to a plurality of target nodes, wherein the contents of said first and second package are determined by a distribution server before the contents are distributed without the plurality of target nodes initiating the distribution, said apparatus comprising:

- a distribution node for transmitting packages of software;
- a first branch node in communication with said distribution node, said first branch node being arranged to receive said software package from said distribution node;
